

## Meeting log

March 2th, 2016

- First meeting for assignment 4, part 2.
- Discussed the structure of the website that we are going to make base on the mockup of our first part of the assignment.
  - The first task we decide to accomplish is rewrite the front end of the website from part 1 of the assignment.
  - Hongjian will be working on the about page.
  - Shunzhe will be working on the main page.
  - Ziyang and Jingying will be working on the event information page together.
- Decide the meeting time and location for the next meeting.
- the next meeting will be at March 9<sup>th</sup>.

March 9<sup>th</sup>,2016

-For this meeting, we have reach a consensus that using Github with every one pulling and committing to the repo will become a mass, so we decided to concentrate the code to one of the members and that member will be in charge put all parts together and then commit to Github with only one account.

The purpose of this meeting is to check everyone's work progress, make sure everyone is on the right track and Discussed what are we going to do for next stage of the work.

- Discussed how are we going to set up the server end of the webpage and distribute the work.
  - Shunzhe will be working on the geolocation function in the main page.
  - Hongjian will be working on the http support for the angular.
  - Ziyang and Jingying will be working on the location API to main page.
  - Shunzhe is in charge of final check and commensuration of the code.
- Decide the meeting date and location for next meeting.

March 17<sup>th</sup>, 2.016

-The purpose of this meeting is to get everyone's code together, and help Shunzhe to gather the code together, make sure when he has a question, rest of us is right beside him. Also decide what are we going to do after this meeting.

- Discussed what are we going to do after the meeting.
  - Shunzhe is going to add rating star function to the website.
  - Hongjiang is going to add controller to the main page.
  - Ziyang is going to add register function
  - Jingying is going to add passport authentication and login function.
- Decide the meeting date and location for next meeting.

March 21th,2016

- The purpose of this meeting is to discussed how to improve the look of the website
  - Shunzhe is going to add a walking man gif when page is loading.
  - Hongjian Huang is incharge of the navigation bar.
  - Shunzhe is also going to finish the security of the webpage
  - Jingying and Ziyang are going to add the profile page to the website
- Decide the date and location for the next meeting.

March 31th, 2016

- The purpose of this meeting is to walk through the marking rubric to see if we missed anything.
- By walking through the marking rubric, we found that there is still something that we need to finish.

- We discussed the work left to be done, and distribute the mission

- Hongjian will be working on the readme pdf

- Shunzhe will be working on the profile function of the website

- Ziyang and Jingying will be working on the test cases.

- Decide to have a final meeting after we finish everything to make sure everything is ok.

April 6, 2016

- The purpose of this meeting is to do a final check of the assignment.

- By reading the post from a TA on Piazza, we notice that we need to create a new repo on the Github, and everyone commit something to it.

- So this meeting is basically about us committing part of the code to the repo.

- Finishing the test case.

- Finishing writing the meeting log.
